experts guiding the initiative

Starting January 2027 in Dima Hasao, Assam, with local youth first.

Practical Skills. Real Careers.

- **Ladli Ju Welfare Trust proposes industry-oriented skill and vocational training in Dima Hasao, Assam, focused on youth empowerment, employment and sustainable livelihoods.**
- **Practical, hands-on training with exposure to real-world working environments.**
- **Career counselling and professional guidance to help students identify interests and choose suitable pathways.**
- **Led by young professionals and industry experts, in collaboration with government, institutions, industry and community stakeholders.**

Our Vision, Mission and Commitment

Vision: a skilled, self-reliant and empowered generation of youth, with quality training, meaningful employment and entrepreneurship.

Mission: bridge the gap between education and employment through industry-relevant training, practical learning, career counselling and entrepreneurship support.

Commitment: build a practical connection between education, skills and employment with the Dima Hasao Autonomous Council (DHAC) and all stakeholders.

Ten Objectives, One Purpose (1–5)

Skill Development: vocational, technical, digital and professional training aligned with industry needs.

Employment Generation: industry partnerships, placement assistance, apprenticeships, job-oriented training.

Career Guidance: structured counselling on education, development and career selection.

Entrepreneurship Promotion: training, mentoring and institutional linkages for self-employment.

Local Youth Empowerment: priority for eligible youth in Dima Hasao and surrounding areas.

Ten Objectives, One Purpose (6–10)

Industry and Institutional Collaboration: partnerships with government, institutions, industries and providers.

Digital and Professional Literacy: digital skills, communication and workplace readiness.

Inclusive Development: equitable access, especially for underserved and economically disadvantaged youth.

Sustainable Livelihoods: market-oriented skills for economic independence.

Regional Development: strengthen local human resources and connect trained youth to opportunities.

Certification That Builds Credibility

- **NSDC-linked training and assessment through eligible, authorised partners.**
- **NSQF-aligned qualifications mapped to approved standards, where available.**
- **Industry certifications in cybersecurity, AI tools, CAD/CAM, SolidWorks, AutoCAD, robotics, automation and hospitality.**

Practical assessment: projects, lab work, competency tests; career readiness through portfolios, internships and placement assistance.

- **All arrangements confirmed before enrolment; institutional and external certificates clearly distinguished.**

From Assessment to Employment: Six Steps

- Assess local skill requirements and employment opportunities.
- Identify priority courses based on student interest and industry demand.
- Arrange qualified trainers, facilities and practical resources.
- Develop industry linkages and certification pathways.
- Provide career counselling and student mentorship.
- Monitor participation, completion and progression to education, employment or enterprise.

Our Ask: Partner With Us, Council

- **Identify local skill gaps and priority employment sectors.**
- **Outreach to schools, colleges, communities and eligible students.**
- **Explore suitable training venues and infrastructure.**
- **Engage government departments, employers and industry partners.**
- **Identify applicable government schemes and permissible support.**
- **Develop a formal collaboration framework or MoU, subject to competent authority approval.**
